## Production Company Woes

By now everyone has heard of some production companies going out of business, filing bankruptcy, etc. Blah, blah, blah... were does that leave you guys with those custom bikes?

Hey, we have always been here and plan on being around a long time.

We have the experience to repair, match paint or service your custom motorcycle.

Rick is member of master builders association.

We are dealers for S&S, Ultima, TP as well as other major engine and drive train companies.

Bring us your Big Dogs, American Ironhorse or KC Creations customs.

We pride ourselves on exceptional service done quickly and at reasonable prices

---

**We do motorcycle collision repair, in fact Harley Davidson recommends us for collision repair.**

**We will work with your insurance company and provide OEM replacement parts from Harley-Davidson**

**We also service and repair all custom motorcycles**

**Call us for an estimate  
785-749-1562**

*Frustrated with parts guys who don't know crap?*

*Cut the crap and ask Rick*

---

**The painting is in the prep work**

*Parts are inspected for any damage and repaired. First sanding to entire surface is followed by "a special primer" and dried. Second sanding and priming followed by a third sanding, priming and sanding again. Parts are sealed and paint process starts and cleared. Clear coat is sanded prior to artwork being "laid down". Once the art work is done it is final clear coated with multiple layers and dried. Clear coat is then wet sanded twice and buffed and final glazed to a high shine.*

*We take your paint very seriously.*

*We can match all H-D paint codes. No paint code cause it's not stock paint, don't worry we can scan*
